CHOICE BASED CREDIT SYSTEM SEMESTER SCHEME
B.A. FIRST SEMESTER DEGREE EXAMINATION MARCH 2022
Generic English - I

Duration:2 Hours   **Max Marks:60**

SECTION A - WORKBOOK
Unit I: Receptive Skills: Reading Skills and Listening Skills
1.Read the following passage and answer the questions given below: **5×1= 5**

How is technology influencing our lives? Many research studies are seeking answers to this question and coming up with data and information that is worrisome. As the human race increasingly depends on devices for work and leisure, technology invades every aspect of our lives. We have appliances in our kitchens and homes, machines and computers in offices, and of course, innumerable gadgets without which people feel lost and incomplete.

In fact, we now try to measure every aspect of our lives with gadgets and gizmos available in the market. These health devices can track routine activities like sleep, exercise, diet, heartbeat, breathing rate, steps taken, water intake and every conceivable aspect of life. Health and fitness is measured by a smart watch, fitness band and other wearable applications available in the market. Though many of these applications are truly useful to measure health parameters like blood pressure, heart rate, etc etc for the ailing; they have begun to dominate the lives of people for whom it becomes their personal health information guru. If the health parameters do not match the desired outcome of the application they are using, it causes anxiety and stress. Many health freaks end up with obsessive compulsive disorders.

Several psychiatrists disapprove of our dependence on gadgets to assess our health. They refer to it as the over monitoring syndrome. Instead of listening to our own bodies, which are best judges of our physical and mental health, we look at the numbers on the gadget to tell us whether we had a good workout or sufficient and restful sleep at night. Since every human being is different, can an app accurately match and measure the parameters of each individual using it? Another downside is that instead of enjoying the simple health benefits and pleasure of a sport/ workout, the completion of the target becomes the focal point of the exercise.

The advice given by medical practitioners is that a healthy life is judged by your physical, mental and social wellbeing and not by machines of any kind. So use gadgets judiciously and do not let them dictate your life.

1. Health devices are useful for
   a) Checking our moods.
   b) Keeping fit and happy.
   c) Keeping a track of everyday activities like exercise, sleep etc.
   d) Monitoring work and leisure activities.
2. Medical practitioners' advice is that we should measure health by
   a) Physical fitness
   b) Mental fitness

c) Social wellbeing

d) All of the above

3. The drawbacks of health devices are

a) They are too bulky.

b) They are very costly.

c) They cause pressure and anxiety in users.

d) They are a cause of too much distraction.

4. We should assess our health by

a) Using health gadgets which measure all our parameters.

b) Talking to a doctor.

c) Listening to our own body.

d) Asking family and health experts.

5. Find words in the passage which are similar in meaning to the ones given below:

a) Dimensions

b) Supervising or overseeing

2. Using the following details write a Bibliography in MLA format: 3×1= 3

Title of the Book: Murder on the Orient Express

Author: Agatha Christie

Publisher: Harper Collins

Year: 1982

3. Study the data representation given below and interpret it: 5×1= 5

The bar graph given below shows the sales of books (in thousand number) from six branches of a publishing company during two consecutive years 2000 and 2001.

Sales of Books from Six Branches - B1, B2, B3, B4, B5 and B6 of a publishing Company in 2000 and 2001
4. Answer any FIVE of the following in 2-3 sentences each: 5×2= 10

a) Mention a few steps for writing a Brochure.

b) Write a few common barriers to listening.

c) What is picture advertisement?

d) Write any 3 common barriers to hearing.

e) What is Proxemics?

f) What are the characteristics of Verbal Communication?

Unit II: Productive Skills: Speaking Skills and Writing Skills

****

CHOICE BASED CREDIT SYSTEM SEMESTER SCHEME

B.Sc. FIRST SEMESTER DEGREE EXAMINATION MARCH 2022

Generic English - Conflations I

Duration: 2 Hours   **Max Marks: 60**

SECTION A – (WORKBOOK) RECEPTIVE SKILLS AND PRODUCTIVE SKILLS

UNIT - I

I. Read the following passage and answer the questions given below: 5×1= 5

Information is stored in audio/video tapes by magnetising them. These tapes are actually long, thin plastic films coated with a magnetic material, mainly iron oxide. Likewise, the player has a recording head which consists of a coil of a wire wound around a circular piece of iron with a small gap. Any current passing through the wire would produce a magnetic field around it. Information (voice or image or any data) to be stored is converted into electric signals (by a microphone) amplified and fed to the recorder head. As the current varies in accordance with the image or sound (input signals) to be recorded, it produces a varying magnetic field. When the tape is run through the small gap present in the recording head, the varying magnetic field magnetises the particles on the tape rearranged their moments in accordance with the variation in the input signal. To reproduce the Signal recorded, the tape is again run past the recording/playing head which senses the magnetic field along the tape. This induces a varying current in the coil. This current is amplified and fed to the speaker or TV to reproduce the original message.

1. How is information stored in audio/video tapes?
2. How does a wire produce magnetic field?
3. How is the information fed to the recorder?
4. How does the tape reproduce the recorded signal?
5. Information is converted into _____

II. Using the following details write a Bibliography in MLA format: 3×1= 3

   Title of the book: Brave New World

   Publisher: Chatto & Windus

   Author: Aldoux Huxley

   Place of publication: United K.

   Year of publication: 1895

    b. Sketch the character of Aloo?

****

CHOICE BASED CREDIT SYSTEM SEMESTER SCHEME
B.Com. FIRST SEMESTER DEGREE EXAMINATION MARCH 2022
Generic English - I

Duration: 2 Hours   **Max Marks: 60**

SECTION A – WORKBOOK
UNIT I

I.A. Skim the following paragraph and answer the questions that follow: 1×3= 3

A papal decree of 1493 had assigned all land in the New World west of 50 degrees W longitude to Spain and all the land east of that line to Portugal. Magellan offered to prove that the EastIndies fell under Spanish authority. On September 20, 1519, Magellan set sail from Spain with five ships. More than a year later, one of these ships was exploring the topography of South America in search of a water route across the continent. This ship sank, but the remaining four ships searched along the southern peninsula of South America. Finally they found the passage they sought near a latitude of 50 degrees S. Magellan named this passage the Strait of All Saints, but today we know it as the Strait of Magellan.

a. The Pope divided New World lands between Spain and Portugal according to their location on one side or the other of an imaginary geographical line 50 degrees west of Greenwich that extends in an ___ direction.
   A. north and south
   B. crosswise
   C. easterly
   D. south east
   E. north and west

b. One of Magellan's ships explored the physical features of -------------for a passage across the continent.

c. What is the passage 'The Strait of All Saints' now known as?

B. Scan the following paragraph and answer the questions that follow :   1×2= 2

One of the most intriguing stories of the Russian Revolution concerns the identity of Anastasia, the youngest daughter of Czar Nicholas II. In 1918 a group of people, known as Bolsheviks, overthrew the government. On July 17 or 18, they murdered the Czar and what was thought to be his entire family. Although witnesses vouched that all the members of the Czar's family had been executed, there were rumours suggesting that Anastasia had survived. Over the years, a number of women claimed to be Grand Duchess Anastasia. Perhaps the best – known claimant was Anastasia Tschaikovsky, who was also known as Anna Anderson.

a. How did the members of the Czar's family die?

b. Who did Anna Anderson say she really was?

II. Rearrange the following details and write a Bibliography in MLA format: 1×3= 3

Author's name : Eddie Williams and Chris Moran

CHOICE BASED CREDIT SYSTEM SEMESTER SCHEME
B.B.A FIRST SEMESTER DEGREE EXAMINATION MARCH 2022
Generic English - Spectrum I

Duration: 2 Hours　　　　　　　　　　　　　　　　**Max Marks: 60**

UNIT I

I. (A)Skim the following paragraph and answer the questions that follow:　　3×1= 3

Ammon means "fragrant spice plant" in Arabic, Hebraic and in Italian, canella means "little tube". These are a few of the many terms given to the popular spice known as cinnamon. Dating back as far as 2800 B.C., Chinese writings describe cinnamon as an important part of the culture, so much so that over the years this spice was traded right up there with silver. Nowadays we find it in sweetened cereals, baked foods and sprinkled on various foods such as yoghurt. Cinnamon is derived from the inner bark of the cinnamon tree grown and harvested mostly in Sri Lanka but also found in Brazil, Indonesia, Vietnam, China and Burma. After a cinnamon tree grows for about six to eight years it is cut down leaving a stump to allow it to grow again making it a very sustainable practice. It is then stripped from the bark, dried and packaged as sticks for export. Scientists already credit cinnamon with helping lower blood sugar concentration and improving insulin sensitivity. When less sugar is stored as fat, this translates into more help for your body when it comes to weight loss.

Several studies have been published regarding the weight loss properties of cinnamon which include its unique ability to be used for type 2 diabetes which is a disease often resulting from obesity. When eaten, the spice seems to slow down glucose absorption within the intestines while stimulating insulin production. This normalizes blood glucose levels which in turn can indirectly decrease weight gain.The results of study demonstrate that intake of 1, 3 or 6 gms of cinnamon per day reduces serum glucose, triglyceride, LDL cholesterol and total cholesterol in people with type 2 diabetes and suggest that the inclusion of cinnamon in the diet of people with type 2 diabetes will reduce risk factors associated with diabetes and cardiovascular diseases.

1. How is cinnamon derived?
2. What credit do scientists give the spice Cinnamon?
3. Which two major diseases can the intake of cinnamon help in patients who have Type 2 diabetese ?

(B)Scan the following paragraph and answer the questions that follow:　　2×1= 2

The behavior used by a nonhuman animal to avoid being harmed by another is animal defense. This might involve defensive aggression against a potential predator or against a member of its own species, from its own group or an outside group, or animal escape behavior to avoid the source of harm. The animal kingdom is full of creatures which possess impressive weapons, used to hunt their seemingly helpless victims. However, there are certain animals out there that are more than capable of looking after themselves. Killer becs -their name alone should be enough to put off any potential predators but if anything does decide to take on a

swarm of these killer bees then they have an efficient way of making things regret it! If the swarm suspects a potential threat to themselves or their hive they will begin to attack the unlucky individual. Like all bees, the Africanized bees or killer bees will sting their enemies, releasing toxins into their body in the process. However, this is not the end. The toxins contain a hormone which attracts the other bees and signals exactly where the enemy is. So if you are stung by one of these beasties, be sure to run because their friends won't be far behind!

1. What is animal defense?

2. How do killer bees attack their enemies?

II. Rearrange the following details and write a bibliography in MLA format: 1×3= 3

Name of the Publisher: Rupa
Title : The Jungle Omnibus
Year : 2014
Author : Ruskin Bond
Place of publication : New Delhi

III. Write an editorial on the following topic in about in about 100 words: 1×4= 4

The political scenario in India.

IV. Design a brochure based on the following details: 1×3= 3

A Cookery Book "Easy Cooking for All" launching ceremony by Navachetana Publishers.

CHOICE BASED CREDIT SYSTEM SEMESTER SCHEME
BCA FIRST SEMESTER DEGREE EXAMINATION MARCH 2022
Generic English - Treasure Trove I

Duration: 2 Hours   **Max Marks: 60**

SECTION A: RECEPTIVE SKILLS AND PRODUCTIVE SKILLS

I. Read the following passage and answer the following questions: **5×1= 5**

A century before the dawn of the computer age, Ada Lovelace imagined the modern-day, general-purpose computer. It could be programmed to follow instructions, she wrote in 1843. The computer she was writing about, the British inventor Charles Babbage's Analytical Engine, was never built. But her writings about computing have earned Lovelace — who died of uterine cancer in 1852 at 36 — recognition as the first computer programmer.

She also explored the ramifications of what a computer could do, writing about the responsibility placed on the person programming the machine, and raising and then dismissing the notion that computers could someday think and create on their own — what we now call artificial intelligence.

Lovelace lived when women were not considered to be prominent scientific thinkers, and her skills were often described as masculine. She showed a passion for math and mechanics from a young age, encouraged by her mother. Because of her class, she had access to private tutors and to intellectuals in British scientific and literary society. She was insatiably curious and surrounded herself with big thinkers of the day, including Mary Somerville, a scientist and writer.

It was Somerville who introduced Lovelace to Babbage when she was 17, at a salon he hosted soon after she made her society debut. He showed her a two-foot high, brass mechanical calculator he had built, and it gripped her imagination. They began a correspondence about math and science that lasted almost two decades. She was determined, however, not to let her family life slow her work. The year she was married, she wrote to Somerville: "I now read Mathematics every day and am occupied in Trigonometry and in preliminaries to Cubic and Biquadratic Equations. So you see that matrimony has by no means lessened my taste for these pursuits, nor my determination to carry them on."
1. Who was Ada Lovelace?
2. What is the meaning of the word "insatiably" (paragraph 4)?
   a. satisfied
   b. impossible to satisfy
   c. pleased
   d. weak
3. What is the meaning of the word "ramifications" (paragraph 2)?
   a. Consequences
   b. Advantages
   c. Technology
   d. Future

4. "Matrimony has by no means lessened my taste for these pursuits." What does Ada mean by this statement?

5. Who was Mary Somerville?

II. Write a paragraph based on the information provided in the following pie chart/bar graph : 1×5= 5

The following pie chart shows the different types of books preferred by students of the age group 7-12 years. The total number of students surveyed is 100. Using the data provided, write a paragraph.

Book Preferences

- Adventure
- Superhero comics
- Fairytales
- Mystery
- Humour
- Romance
- Mythology-based comics

III. Answer any ONE of the following questions: 1×3= 3

a. Draft an advertisement for an English coaching centre in Mangalore.

b. Mention a few important features that you would include in a brochure about travelling to Mangalore.

IV. Using the following details, write a bibliography in MLA format: 1×2= 2

Author 1: Wendy Byrd
Author 2: Walter White
Title: Understanding the War on Drugs
Year: 2022
Publisher: Oxford

V. Answer any FIVE of the following: 5×2= 10

a. What is hearing? How is it different from listening?

b. What are some of the ways to ensure good listening?

c. What are the verbal signs of active listening?

d. What is comprehensive listening?

e. What is therapeutic listening? How is it different from critical listening?

f. What are the barriers to active listening?

g. What is the meaning of the term "active listening?"

VI. Answer any ONE of the following questions: 1×3= 3

    a. Give directions to a friend from St Agnes college to go to City Centre.

    b. Give instructions in 4-5 steps for braiding your hair.

VII. Answer the following questions in one line each: 5×1= 5

    a. Congratulate your manager on the birth of her first child.

    b. Request your classmate to send you some notes that you missed in class.

    c. Offer to look after your neighbour's dog while he is on vacation.

    d. Seek permission from your teacher to attend an extracurricular activity during class hours.
